

Save your Electricity Bills up to 90%*

Smart Solar Hybrid Solutions
(Micro inverter based)

How it works

- Our smart Power Generator is fitted below Solar Panel
- DC Power from the Solar Panel is converted into grid matching AC Power (synchronization)
- Several such panels are connected in parallel to produce the desired Watts
- Average Solar Power Generation 5 units*
Approx per day per KW

Harness the Sun

Advantages

- Modular scalable and Net Meter ready
- Single Panel to MegaWatt
- Maximizes the energy harvest
- Works seamlessly in synchronization with Utility EB/ Generator/ Battery Inverter

Reduces

- Utility Bill
- Generator
- Fuel Consumption
- Number of batteries

* Conditions apply

Be secured.....

Solar System

- Roof top system (Off / On Grid / Hybrid)
- Individual houses
- Educational Institutions
- Apartments & Complexes
- Industrial Roof top
- Corporate
- Solar water pumping
- Solar power plant
- Solar lights

The power for you

From 0.3 KW to 5 KW and more.

Our Off-Grid, On-Grid and Hybrid solutions are one among the best

Use your idle rooftop and pay only 10% of your electricity bills*

"SunGrass offers the best solution for me, I have given the best for my children."

-Very Smart customer

Welcome to the green revolution

India is blessed with abundant solar radiation, We are motivated to reap the green energy to make this world a better place to live. Offering Solar installations to make your place power reliable, Cost efficient and sustainable.

Your future generation will thank you as our efficient and reliable solution will sustain for longer years with minimum maintenance.

We have customizable solution for you!!!

We believe each of our customers are unique and would require the best solution tailor made for them

From Small homes to large farm houses, from individual homes to flats we have the best to offer.

Our Smart On-Grid and Off-Grid Systems

From 0.3 KW to 5 KW for Home.

Up to 2 MW for Corporate.
